How it works?

1 Install the screens

From our range of large or small screens or use your own.

2 Install the players

From our range of provided players Amazon TV/Fire Stick, PC, Mac OSX, Linux or use your own.

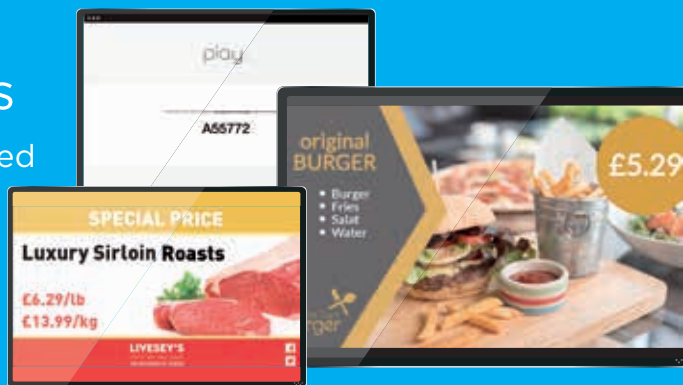

3 Download our app

From a range of providers that suits the player you wish to use.

4 We manage your screens

With your content designed and managed by us, taking care of all direct uploads to your screens with no fuss.
